Welcome Message

Dear Colleagues and Friends,

As you know, the 27th International Pediatric Colorectal Club Meeting was scheduled to be held in New Delhi, India. Due to the ongoing Covid-19 pandemic, the PCC-2020 had to be changed to a virtual congress, now being held from December 12-13, 2020.

Over the years, Pediatric Colorectal Club has established itself as a landmark annual international event which is attended by the clinical and research experts, fellows and the trainees focusing on the practice of colorectal surgery. This year there are two invited guest lectures, 58 oral presentations including 2 video presentations and 13 posters.

Accessible from all over the world, PCC 2020 Virtual Congress should be an exciting alternative for our delegates to the regular physical meeting. Although, we would be missing the opportunity to host you with Indian hospitality, culture and cuisine, the PCC 2020 Zoom Meeting should provide all delegates with plenty of opportunities to Interact and exchange ideas in the field of pediatric colorectal surgery.

We look forward to your participation during PCC-2020.

[Devendra K Gupta]
Chairman PCC-2020
New Delhi.

[Prem Puri]
Chairman, Scientific Committee.
Dublin

GENERAL INFORMATION

Conference days

Saturday, the 12th December 2020 (17:00- 22:30 hrs IST)

Sunday, the 13th December 2020 (17:00- 21:30 hrs IST)

Board Meeting and the Publication Committee Meeting:

Friday, the 11th December 2020 (16:00-20:00 hrs IST)

Time Zones:

Please use the [time zone converter](#) to identify correctly what time the program will begin in your time zone of the world areas.

Registration

Each participant and abstract presenter **must register individually** in order to receive a unique Zoom link to join the meeting from a PC, Mac, iPad, iPhone or Android device. The delegates can **register ONLINE www.PCC2020.com**.

Participation and abstract presentation at the live online conference can only be guaranteed following successful registration **by December 10, 2020**.

For further assistance, you may write to MIKE Hospitality by email: anil@mikeevents.in or contact Prof. Shilpa Sharma - drshilpas@gmail.com, or Prof. Devendra Gupta- profdkgupta@gmail.com

Language:

English is the only language used during the meeting.

Manuscript submission

Manuscripts of the accepted Abstracts will be considered for publication in the special issue of Pediatric Surgery International. Manuscripts can be submitted by Email to Prof Prem Puri (prof.prempuri@gmail.com), **before December 07, 2020**. Presentation of your paper is not a guarantee of acceptance for publication in PSI.

GENERAL INSTRUCTIONS FOR PARTICIPANTS AND PRESENTERS

Before joining the PCC-2020 meeting on an **internet connected computer or mobile device**, you have to **download the Zoom app** from the website: <https://zoom.us/download>. Otherwise, you will be prompted to download and install Zoom when you click on the join link that you will receive via email a few days before the virtual conference. You can visit the Zoom video tutorial page for additional information.

Zoom control panel available to participants and abstract presenters:

Using these icons located at the bottom of your Zoom screen, you can:

- “*Microphone*”: Mute/ Unmute your own microphone -
- It is recommended participants keep themselves muted when not presenting or speaking to avoid disruptive background noise.
- “*Camera*”: Start/Stop your video camera. “*Participants*”: Clicking here will open a pop-out screen showing you all the names of the participating delegates.
- “*Chat*”: Participate in written chat messaging with other participants and the host(s).
- “*Share Screen*” (only for abstract presenters): Clicking here will give you the option to share your presentation.
- “*Reactions*” is only available when your camera is turned on. You can choose from thumbs up or clapping hands emojis, which appears briefly in your camera window after you’ve made your selection.
- “*Gallery View*” and “*Speaker View*”: Found in the top right corner of the screen once you’ve joined the meeting and at least one camera is turned on.
- “*Speaker View*” will display only the window of the person actively speaking.
- “*Gallery View*” will show all windows of all participants in a faces-in-windows format.

STEP-BY-STEP INSTRUCTIONS FOR PRESENTERS

Kindly log into the virtual conference site, at least 5 minutes before the starting time of your session. You may be put in a waiting room upon arrival; your moderator will let you in shortly.

Test your audio and video.

To begin the session, the moderator will stop sharing their session title slide (if they have one) and will give some general Housekeeping Notes and Introductions.

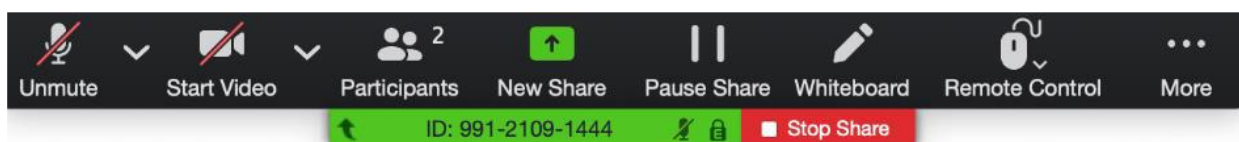

Be sure your presentation is open and ready to be shared before you begin screen share. Nothing else should be open on your desktop.

When it's time for you to present, click on **"Share Screen"**. This will bring up a window giving you several options of screens/applications to share. Once you've made your choice, click **"Share"** and then bring your presentation in Slideshow Mode.

If you have audio/video in your presentation click **"Share computer sound"** at the bottom left of your screen before you click **"Share"**. It is highly recommended that you practice playing your video through a free or paid Zoom account prior to the meeting. Have another person join you in the meeting (or you can join) on a different device and ask for their feedback on their viewing experience.

When you're finished with your presentation, leave your last slide on the screen until you are done taking questions.

Afterwards click the red **"Stop Share"** button in your meeting control bar. This will allow the next presenter to share their screen as this meeting is configured to allow only one participant to share their screen at a time.

INSTRUCTIONS TO PREPARE THE E-POSTER

1. E-Poster should be prepared according to the power point template.
2. For the sake of uniformity, all posters should be made in the template which is a powerpoint slide of size 120x90cm in landscape.
3. The slide once ready can be saved as a .jpeg/.jpg image.
4. The poster is to be exported as a .jpg image with good resolution and quality. You may need professional help with your local computer vendor.
5. The .jpg image of the poster will be available **as links** on the conference website and displayed as per turn by the Organizing Team.
6. Please send the poster by 7th December, 2020.
7. The author has to be available for online Discussion during the poster session.
